 Center for Health & Rehabilitation, LLC

Setting the Standard in Comfort and Care

Brentwood Center for Health and Rehabilitation welcomes you, and thanks you for choosing our center for your healthcare needs. An exceptional community healthcare resource for many years, we exceed expectations in meeting the needs of individuals who require short-term rehabilitative care following hospitalization, or are in need of skilled nursing care. Our staff of concerned and dedicated professionals is committed to helping everyone adjust to life here, providing support and guidance on a one-to-one basis.

Whether you join us for a brief stay or call us your home, we want you to feel as comfortable as you would amongst family. Everyone can enjoy lounging in our spacious, well-appointed sitting room or catching up with an old friend in the beautifully landscaped courtyard. Elegantly decorated rooms are ready to be furnished with special touches and treasures from home.

Passport Rehabilitation – Your Passport Home

Our signature “Passport Rehabilitation” program was designed to meet the clinical needs of individuals requiring a short-term rehabilitative stay following a hospitalization or an acute medical episode.

The short-term rehabilitation unit includes a dedicated area within our center and a rehabilitation gymnasium for those patients admitted for short-term intensive rehabilitation. We aim to have all patients functioning to the best of their ability in the shortest period of time.

The following rehabilitative services are available as needed:

- Physical, Occupational and Speech Therapy
- Customized Clinical Programs
- Orthopedic Rehabilitation
- Fully Equipped Rehabilitation Department
- Cardio/Pulmonary Rehabilitation
- Cognitive Retraining
- Ambulation Training
- Endurance Training
- Activities of Daily Living Re-training
- Patient/Family Education
- Home Discharge Preparation
- ESTIM and VITAL STIM (therapies)

Skilled Nursing

Upon admission, each resident is evaluated by our interdisciplinary team to develop a comprehensive care plan including all medical, nursing, rehabilitative, nutritional, psychosocial and therapeutic needs. Every plan is customized to each resident, taking into account their likes and dislikes, hobbies, interests, and capacities.

We take a holistic approach to care that encompasses the mind, body and spirit. Consistent nursing assignments create personal relationships with the resident and their family, allowing for the monitoring and awareness of subtle changes in the health of the patient.

We determine plans for services according to need, which are then carried out in conjunction with the resident’s plan of care. Our goal is to assist each resident in achieving his or her best level of health each day, and to provide the highest level of care. Therapists available throughout a long term stay is needed.
