Focusing on Elder Law, Estate  
Planning and Real Estate

While typical estate planning includes planning for incapacity during one's lifetime and distribution of one's assets upon their passing, estate planning attorneys who also specialize in elder law and real estate, like Elly, are better equipped to create an individualized and comprehensive estate plan by protecting one's assets, such as the primary residence, camp or cottage, from the growing costs of long-term care.

As a Certified Master Gardener Volunteer and Accredited Attorney with the Veterans Administration, Elly's passion for working with elders and veterans extends beyond the office where she can focus on the whole individual, not just a specific area. It's never too late to plan and having a plan puts your mind at ease. Give Elly a call to help you plan for your future.
